

# Turning ambition into action for local energy projects

From retrofitting homes to building EV charging networks, from decarbonising transport to reshaping local buildings, councils and Net Zero hubs are leading the charge.

Yet getting spades in the ground isn't easy. Projects are complex, skills are in short supply, and knowledge doesn't always get shared.

## Net Zero Go is here to change that

Inside you will find e-learning courses, knowledge resources, and discussion spaces, designed to help officers deliver successful clean energy projects.

modules  
completed

## Quality you can rely on

Be safe in the knowledge that you're getting quality information with CPD-accredited e-learning courses.

'It's a really good course! Everything's clearly laid out and the terms are explained really well. It's easy for anyone to get started. I'd definitely recommend it as a great introduction for most local authority officers.'

Colchester City Council

# Knowledge library

All the knowhow you need. Faster.

Net Zero Go gives you quick access to the UK's best resources, all searchable through our improved filtering system.

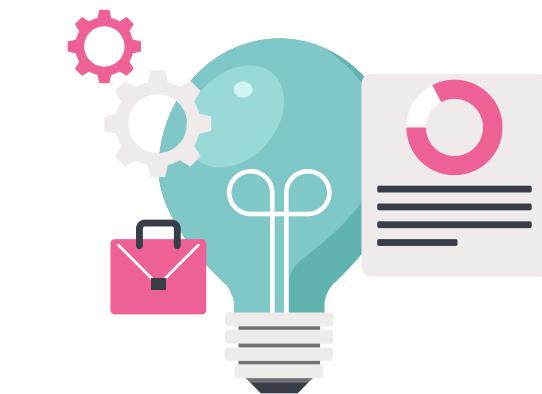

## The best from across the sector

Our team finds the best resources from over 100 different content providers such as Regen, APSE, and the Net Zero Hubs.

## Up to date and in one place

So you know exactly where to look when you need guidance.

## 800+ resources

Including step-by-step guides, case studies, and datasets.

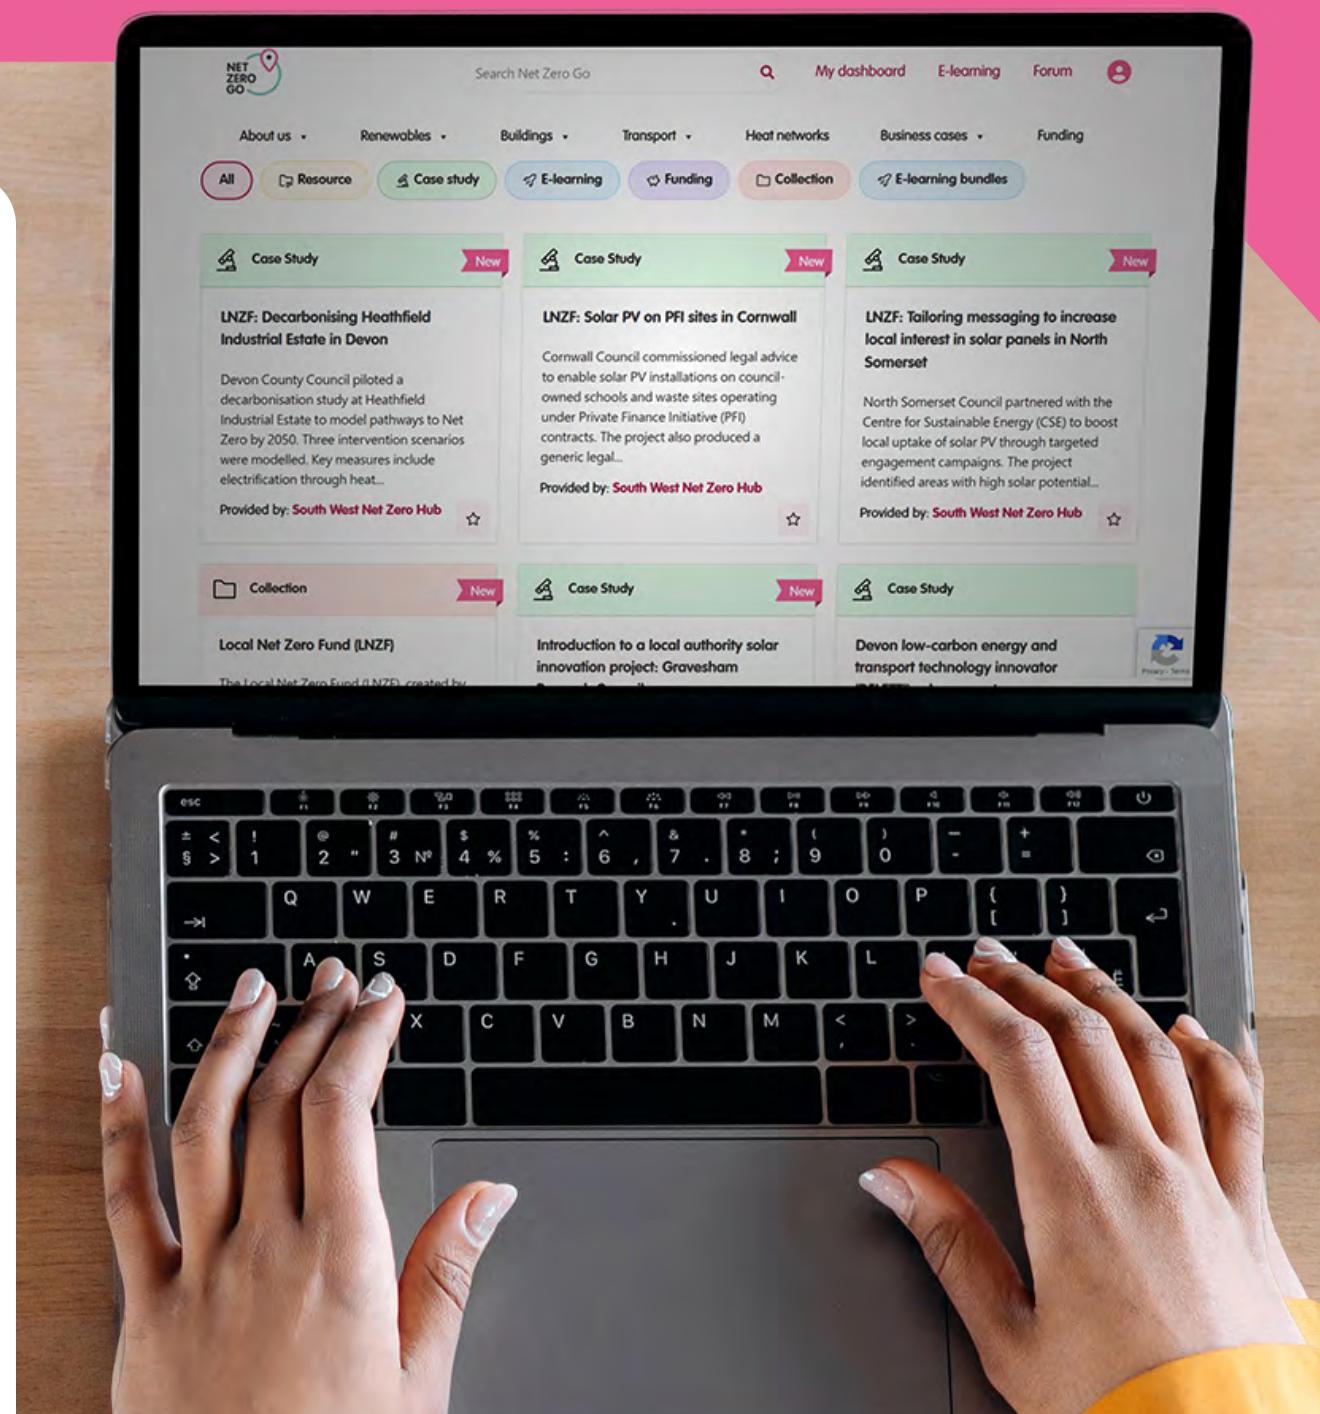

‘Looking back, the hardest part was just figuring out where to start with a local decarbonisation plan. I needed something that clearly showed the first steps, plus examples from others who'd done it before, and I found all of that in one place on Net Zero Go.’

Bournemouth, Christchurch and Poole Council

## Boost your business case

Don't start from scratch, find trusted evidence from other local authorities with relevant experience.

discussions

Liverpool City Region Combined Authority

'I also find the collaborative aspect really valuable - when other people ask questions you wouldn't have thought of yourself, and you get different perspectives.'

## Save time

No more looking across multiple different microsites to find guidance, find the best resources and insights from other local authorities fast, in one place.

## Beginner to expert

Find courses and resources aimed at foundational basics, or more advanced learning.

## Get started with confidence

Select which skills and project types you are interested in.

## Ask your peers

Connect with other councils and Hubs through our secure community forum.

Start today. Level up. Fast
